EDUCATION

Rutgers University, New Brunswick

Bachelor of Science in Computer Science & Finance

GPA: 3.7/4.0

Expected May 2028

- **Honors/Awards:** Dean's List, AP Scholar with Distinction
- **Coursework:** Data Structures & Algorithms, Discrete Structures I, Calculus I, Calculus II, Linear Algebra, Statistical Methods in Business, Financial Management, Financial Accounting, Supply Chain

EXPERIENCE

Keshav Jivani Krupa LLC

Full-Stack Software Engineer

July 2026 – Present

New Brunswick, NJ

- Maintained production websites across 2 brands with **React, PostgreSQL, HTML5, & CSS3**, implementing menu changes, interactive UI components, and responsive elements, serving **9.8k+ average daily users**.
- Parsed and modified SERPs by analyzing **374 targeted keywords**, modifying on-page content, metadata, & keywords to control visibility for brand-related search results, resulting in peak organic traffic of **5k users**.
- Debugged and repaired Contact Us form workflows, collaborating directly with the business owner to resolve submission issues and update backend-connected webhooks, allowing for **80+ client responses** to be received.

A&M Detail Co.

Co-Founder & Software Engineer

June 2026 – Present

Edison, NJ

- Developed a fully operational mobile vehicle detailing business with a deployed proprietary custom booking and operations platform using **Next.js, TypeScript, PostgreSQL, Prisma**, and Resend webhook integration.
- Automated **36** approval, denial, and reminder email deliveries to 12 clients with self-regulated failure notifications.
- Implemented scheduling with live availability, variable slot holding, row locking, unique slot keys, replay-safe submissions, and an authenticated owner dashboard using JSON Web Tokens and Auth.JS with Bcrypt hashing.
- Integrated live Zoho CRM metrics to map operational data and flag durations/material consumption, guiding workflow and resource allocation to drive average production time down by **37.5%** and material cost by **70%**.
- Generated **\$3800+ in revenue** in cash payments within roughly 2 months across 21 vehicles and 18 appointments.

Edison Township Public Schools

Technology Intern

June 2024 – June 2025

Edison, NJ

- Selected from a pool of 400 students, of which 28 were chosen to work within the Edison Township school district working with Technology Leads at 17 schools while offering support to **17,000+** students, faculty, and admin.
- Diagnosed and resolved **220+** hardware, software, network, printer, switch, and access-point tickets across Windows, macOS, and ChromeOS, effectively communicating tickets with staff, students, and administration.
- Automated student enrollment with **Python, JavaScript, and PostgreSQL** through .CSV parsing, information validation, and token assignment to raise workflow efficiency for enrollment, transfers, and database removals.

PROJECTS

Chronoly — *Next.js, TypeScript, PostgreSQL, Prisma, Auth.JS*

- Built a full-stack Rutgers schedule planning platform to model approximately **30,000** active course records, supporting optimal scheduling assignments for user-specific academic planning workflows and degree audits.
- Built authenticated API workflows with JWT validation, rate limiting, ownership checks, session invalidation, PostgreSQL persistence, automated testing, and CI/CD, supporting **30** beta users and **150** generated plans.
- Optimized worst-case transcript parsing from 26.47s to 134ms using graph traversal, transitive dependency closure, topological ordering, choose-N requirement evaluation, course normalization, and dependency prioritization.

TECHNICAL SKILLS

Languages: Python, Java, TypeScript, JavaScript, C++, SQL (Postgres), HTML5, CSS3

Frameworks & Libraries: React, Next.js, Auth.js, Prisma, JUnit

Developer Tools & Platforms: Node.JS, Git, Docker, Kubernetes
